Preface	iii
Abbreviations and acronyms	viii
Introduction	1
I. CONCEPTS AND PRACTICAL ASPECTS	4
A. Introduction – basic concepts	4
B. Technopoles	7
C. Technology incubators	20
D. High-technology industry clusters	28
E. Research networks and co-laboratories	35
F. Technology innovation centres	38
G. Centres of excellence in science and technology	40
II. INITIATIVES IN SELECTED DEVELOPED COUNTRIES	46
A. Initiatives in the United States	46
B. Japanese policy and technology initiatives	62
C. Australian technopoles	63
D. An Italian experience: the SERVITEC initiative	66
E. French technology and policy initiatives	68
F. Cambridge Science Park	80
G. Technology incubators in Israel	84
H. Technology parks in Greece	92
III. INITIATIVES IN SELECTED NEWLY INDUSTRIALIZED COUNTRIES	98
A. Singapore technology policies	98
B. Malaysian initiatives	99
C. Cyber Korea 21 Vision	103
D. Brazilian technology-based initiatives	104
IV. INITIATIVES IN SELECTED DEVELOPING COUNTRIES	108
A. Indian technology policies	108
B. Technology incubators in the Philippines	110
C. Mexican initiatives	113
V. INITIATIVES IN ESCWA/ARAB MEMBER COUNTRIES	124
A. Technology initiatives in Egypt	124
B. Technology initiatives in Lebanon	129
C. Technology initiatives in Kuwait	137
D. Technology initiatives in Saudi Arabia	141
E. Technology initiatives in Jordan	143
F. Technology initiatives in Oman	147
G. Technology initiatives in Palestine	153
H. Technology initiatives in the Syrian Arab Republic	155
I. Technology initiatives in the United Arab Emirates	157
J. Technology initiatives in Yemen	159
K. Technology initiatives in Tunisia	160
L. Technology initiatives in Morocco	163

CONTENTS (continued)

VI. FRAMEWORK FOR FUTURE ACTIONS	167
A. Policy initiatives	167
B. Legislative and regulatory environments	169
C. Financial aspects.....	171
D. Institutional structures and maturity levels.....	172
E. The planning, design and implementation of capacity-building institutional forms	173
F. The government-university-enterprise triangle	177
G. Human resources development initiatives.....	177
H. Initiatives for women.....	178
I. Specific roles in capacity-building initiatives	179
Conclusion.....	182

APPENDICES

1. State co-operative technology programmes in the United States	187
2. List of Israeli incubators and projects	188
3. Some key indicators of R and D and technological development in the Asia-Pacific countries ..	197
4. Technology business incubators and science and technology parks in the Philippines.....	198
5. ESCWA initiative for technology parks, incubators and high-technology clusters.....	199

LIST OF TABLES

1. United States investment allocations, by sector/segment, 1997.....	52
2. Human Genome Project Budget (\$m).....	53
3. Important Japanese technopoles.....	62
4. Main Australian Technology Parks and Precincts	63
5. Areas of research and development at Sophia Antipolis.....	70
6. Distribution of institutions and jobs per sector or field of activity in 1998	71
7. Changes in numbers of institutions between 1997 and 1998	72
8. Changes in numbers of jobs between 1997 and 1998	73
9. Areas of research and development in Cambridge Science Park	82
10. Distribution of companies by activity sector.....	82
11. Quantitative targets of Cyber Korea 21 Vision to 2002.....	103
12. List of incubators that have been established or are under construction.....	126
13. Cost of rental and selected services/utilities provided to PEIE tenants.....	151

LIST OF FIGURES

1. Growth in cluster value creation from 1988 to 1998 (%).....	30
2. Growth in productivity from 1995 to 1998	31
3. Distribution of institutions by sector	71
4. Distribution of jobs by sector.....	71
5. Classification of institutions by number of employees	72
6. Increase in numbers of firms.....	73
7. Increase in numbers of jobs.....	73
8. Changes in the OCS budget for the incubators programme	85
9. Distribution of projects by field of activity	88

LIST OF FRAMES

1.	A recent example of an innovation park	5
2.	General criteria for tenancy at an innovation park.....	6
3.	Science park definition according to UKSPA.....	7
4.	Reasons often quoted for the success of California's Silicon Valley.....	10
5.	Traditional versus new models of innovation	14
6.	Benefits of university-industry relationship.....	17
7.	Employment opportunities created by technology incubators	21
8.	Essential elements in incubation facilities.....	24
9.	Criteria for incubator evaluation	24
10.	Incubators as catalysts for restructuring.....	26
11.	Services and utilities available at ValuePark	32
12.	Synopses of two co-laboratories	37
13.	Best practices for technology innovation centres.....	40
14.	Funded centres of excellence funded through the UCOEP.....	41
15.	Major accomplishments of the UCOEP	42
16.	African centres of excellence	43
17.	Asia-Pacific centre of excellence	43
18.	Key common features of IITs.....	44
19.	Success of the SBIR programme.....	51
20.	Differences in perception of the "city of the future" between Australia and Japan	64
21.	Services offered by SERVITEC.....	67
22.	Conditions on public staff involvement in enterprises according to the French Law on Innovation and Research	77
23.	Main functions of the Steering Committee on Technological Incubators.....	86
24.	Main functions of an incubator in the Israeli programme	86
25.	Rules for initial ownership of a start-up company	87
26.	Indicators on the importance of the electronics sector in Israel	88
27.	Major Israeli fields of expertise in software.....	89
28.	Singapore IT2000 Vision	98
29.	Malaysia's Multimedia Super Corridor	100
30.	"New Silicon Valley": India's Information Technology Industry	109
31.	Institutes/Centres at Mubarak City for Scientific Research and Technological Applications	124
32.	Egyptian Incubator Association strategy and objectives.....	128
33.	General objectives of Lebanon's science policy	129

CONTENTS (continued)

	<i>Page</i>
34. Recommendations to be considered at the national level in future stages of science policy work by NCSR in Lebanon	130
35. Aims and objectives of BERYTECH.....	132
36. Services provided by BERYTECH to emerging/start-up firms and tenants	133
37. Phases in the implementation of BERYTECH.....	134
38. Stages in the design of LTI	135
39. Implementation stages in the LTI project.....	136
40. Typical risks associated with the establishment of incubators	137
41. Objectives and primary services of the Kuwait Technology Incubator	139
42. Admission Criteria	140
43. Framework for Oman's IT policy and related strategy	148
44. Working Groups set up by Oman's Technical IT Team and their Tasks	149
45. Objectives of the S and T Planning Unit.....	153
46. Principles governing the organization of S and T in the Palestinian Territories.....	153
47. Tasks and services provided by university IT centres of excellence.....	155
48. Institutions and structures located in TCT	162
49. The growth of Internet use in Morocco.....	163
50. Actions taken and planned by the government of Morocco in the ICTs sector	164
51. Main focus areas of the Moroccan ICT Action Plan.....	165
52. ESCWA Initiative for the Creation of Technology Parks in the Member Countries.....	200
